**Eliza Allan joins the team as our
local trainer**

Eliza Allan has joined the *Choosing Your Way* team as our local trainer. Eliza will be based in Broome and travel to the communities each week to provide face-to-face training for participants. Currently she is visiting Ardyaloon and Djarindjin for one day each a week. Over time we hope to add Beagle Bay and Lombadina to the mix.

Eliza joined the team from Halls Creek where she was a Deputy Principal at the District High School and has experience in Steiner teaching methods and international teaching experience in Indonesia.

CYW Project Team visits the Peninsula

In the last week of May, the training team visited Djarindjin, Ardyaloon and Lombadina to meet the communities and have a yarn with potential participants about the Project. *Choosing Your Way* will be using face-to-face learning, app-based learning and virtual reality environments to build the literacy, numeracy and digital skills they need to achieve their personal goals.

Choosing Your Way will run until 30 June 2023 as a pilot program, and people can join in at any time.

Contact us to find out more

Along with employing a local trainer and project officer, DAC is partnering with Western Australian businesses to deliver the *Choosing Your Way* project to provide technical skills and support.

- [Business Foundations](#) is supporting DAC as the project managers.
- [Trainwest](#) is providing training materials and assessment expertise.
- [Sentient Computing](#) is developing the virtual reality environments.
- [BlueSky Labs](#) is developing the applications to support the learning.
