Djarindjin Community Protocols

Subject to change

The following is information about our community protocols that will apply while you are within the Djarindjin Community living area.

These are guidelines that Djarindjin Aboriginal Corporation (DAC) expects all visitors to comply with and failure to do so can result in the person or organisation being requested to leave the community.

This is Aboriginal land and the Corporation and residents ask that you respect our community rules as you would have us respect yours.

Pandemic/Emergency Plan

The Djarindjin Community has a Pandemic Plan, this was tested in early 2022 when the pandemic came to the Kimberley's. Djarindjin was prepared and we were able to demonstrate good leadership during the pandemic. We have learned a lot about how to respond and look after our community. The world is much different now and the pandemic plan we have must change with this dynamic environment. We are working towards creating an Emergency Response plan for our community and are keen to work with other authorities to make this a reality. Djarindjin strives to be at least somewhat prepared for what the world throws at us.

You must be vaccinated to visit our community. If there is a need to close the community due to widespread sickness or a natural disaster you will be notified of the community closure.

Communication with stakeholders will continue through our DAC Facebook page, website, email and phone.

If a closure were to occur, Djarindjin Community could remain closed for an indeterminate period of time. Djarindjin Community residents will be provided with food/care packages, and this will be coordinated by the CEO and selected staff/stakeholders who will volunteer their time if it is deemed safe to do so.

There may or may not be assistance provided by the State government, in any case Djarindjin will do what it can to ensure that its residents are well cared for and that appropriate services authorised to provide assistance are able to travel to Djarindjin as soon as humanly possible (or within 24 hours) of any widespread sickness or natural disaster requiring intervention.

In the event of any closure do not travel to Djarindjin under any circumstances UNLESS you have been authorised by DAC or the appropriate authorities.
